

KANCHO's state of the art products utilize user friendly technology and are backed by our experienced industry-leading service professionals. Providing the best hardware, software and support, **KANCHO** enables businesses of all sizes with the reliability and efficiency of modern document management systems.

REMANUFACTURING PROCESS

At **KANCHO** we satisfy the equipment needs of our cost-conscious customer. We offer select pre-owned office equipment that has been Remanufactured to original factory specifications.

KANCHO's Remanufacturing program is based on strict qualification guidelines and comprehensive product inspections and is designed to give our customer the chance to purchase top-quality products at very **competitive prices** with complete confidence.

The equipment available through this process has been pre-selected from **KANCHO's** inventory of pre-owned Office Equipment with strict eligibility criteria that include performance history and low meter counts. Every pre-owned product selected undergoes a rigorous inspection at **KANCHO's** Remanufacturing facility. Certified technicians apply an extensive multi-step cleaning and Remanufacturing process to each device , replacing all high-wear components and adjusting units back to original factory specifications .The Remanufactured equipment is then put through a rigorous testing process to ensure the utmost quality, then packaged using new equipment standards , with printer drivers and user manuals .

KANCHO's Remanufacturing process is not only cost effective for you our customer; it returns the equipment to the office environment, increasing operating life span.
